EPA previously notified you that your facility could reasonably be expected to cause significant and substantial harm to the environment by discharging oil into or on the navigable waters, adjoining shorelines, or exclusive economic zone. You subsequently certified that you have ensured by contract or other approved means the availability of private personnel and equipment necessary to respond to the maximum extent practicable, to a worst case discharge or a substantial threat of such a discharge.

EPA has reviewed your certification and hereby authorizes your facility to operate without an approved response plan until 2 years after the date your plan was submitted to EPA in accordance with Clean Water Act section 311(j)(5)(F). Prior to the expiration of the extension, EPA will complete its review of your plan and notify you of the results. Please note that this extension does not relieve a facility from complying with the OPA requirement to operate in compliance with a response plan by August 18, 1993.

Sincerely,

David Wright, Chief  
Oil and Title III Section  
U.S. EPA Region III
